

STI!

THE BEST ALTERNATIVE TO TERM DEPOSITS

Maximize your returns with a diversified fixed-income portfolio

“DISCOVER THE **STI**—The Best Alternative to Term Deposits”

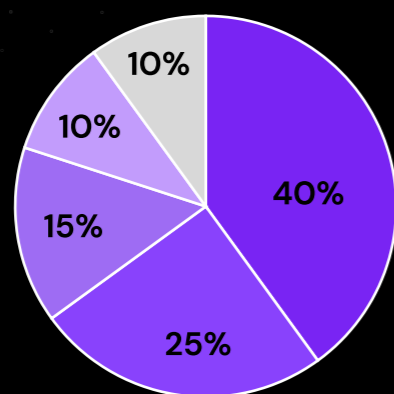

The Security Title Investment (STI) is a fixed-income investment solution designed to offer security and high returns to investors. As an advanced alternative to traditional term deposits, the STI allows you to access a diversified portfolio with an annual return of up to 20% effective annual yield.” This provides you the opportunity to obtain an investment security abroad. Through this option, your savings will generate profitability over a specific term at a fixed interest rate. The best part is that you can request this investment easily and quickly through our website with the help of our advisors, without needing to leave your home or workplace.

“Constituted abroad, the STI guarantees a secure medium-term investment by minimizing risks through diversification in stocks, commodities, and real estate.”

AN OPPORTUNITY FOR CONSERVATIVE INVESTORS

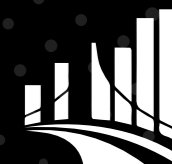

The STI is available to all individuals who wish to invest their money securely and take advantage of the benefits of the international market. It is especially aimed at those seeking a superior alternative to traditional banking products like term deposits.

PLEASE NOTE THE FOLLOWING CONCEPTS:

- Investment abroad: Your money will be outside the country, which will have tax benefits. The capital will be dollarized, making this your first investment.
- Diversified portfolio: Although it will have a pre-established rate, it is important to know that the portfolio funds will be managed by money desks, diversifying into currencies, ETFs, and stock indexes, all considered low-risk assets.

Access to International Card:
Possibility of obtaining an international card to use the capital at the product's expiration (depending on the client's citizenship).

Fixed Income:
Fixed profitability since the STI's establishment with predictable interest rates.

02

03

04

Personalized Advice:
Free and continuous advice on how to manage your capital and returns.

Lower Risk:
Diversification in stocks, commodities, and real estate reduces risk exposure.

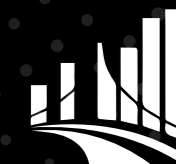

01

05

No Additional Costs:
No commissions are charged for the establishment or expiration of the STI.

directly to the account created at Bridge
Markets LTD.**

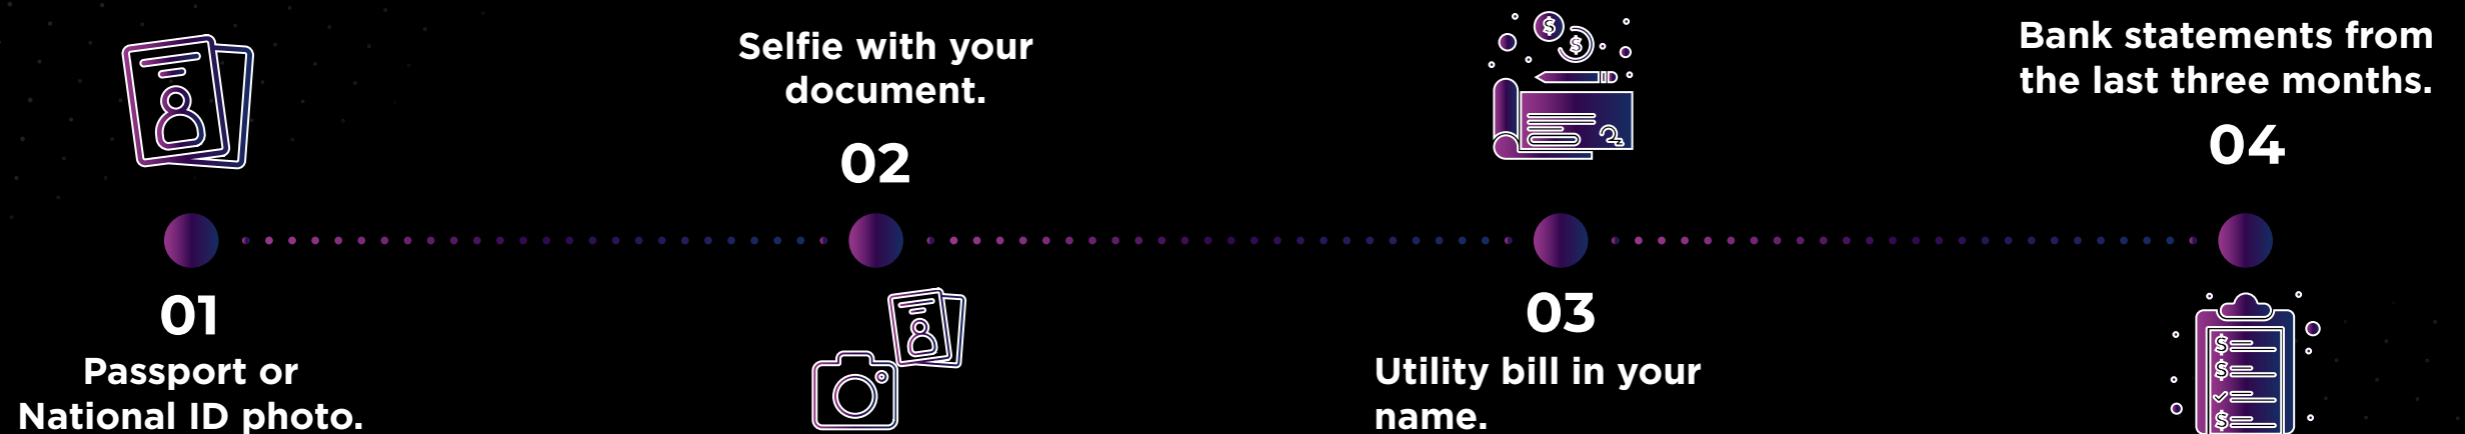

**STI renewal or cancellation procedure: Only
through the client portal or via email.**

HOW TO SET UP YOUR STI?

The process to set up your Security Title Investment is simple and fast. Below are the necessary steps:

Can I withdraw the money before the agreed-upon date?

No, the dates for the money delivery, the profitability, and the amount to be invested are agreed upon when acquiring the STI and cannot be modified. However, if you urgently need the money because, for example, you plan to invest in stocks, you can sell your STI to another person and notify the Broker through an endorsement, which will place the person who bought the STI from you as the beneficiary of the gains instead of you.

As you can see, the STI is a fixed-term deposit that helps you save money with much greater benefits than a savings account and guarantees a profit. You can open your STI today.

WHAT SHOULD I DO WHEN MY STI IS NEARING EXPIRATION?

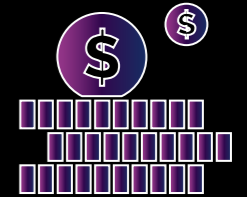

When it's nearing expiration, update your details to ensure the capital disbursement. Bridge Markets commits to making the disbursement within 7 to 10 business days after the request, provided all documentation is in order. Funds will not be transferred to third parties, ensuring the safety and protection of the client's funds.

We are a crypto-friendly institution. Funds can be received, and disbursements can be made through various cryptocurrencies.

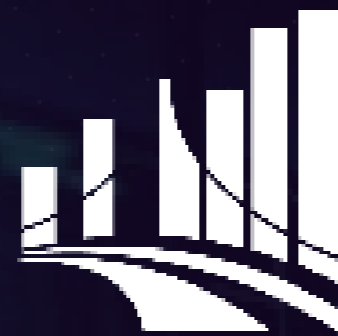

STI vs CDT's:

THE BEST OPTION FOR YOUR CAPITAL

FEATURE	STI (Security Title Investment)	CDT's Tradicionales
ANNUAL INCOME	Up to 20% annual cash	10-13% depending on the bank
DIVERSIFICATION	Stocks, Commodities, Real Estate	No diversification
FLEXIBILITY	Access 24/7 and digital management	Fixed until maturity
RISK	Low for diversification	Low, but less flexibility
TYPE OF CLIENT	Conservative, seeking to maximize market momentum	Conservative, with low risk tolerance
